GENERAL WRITTEN COMMENTS:

WHAT FACTORS ABOUT THIS CLASS CONTRIBUTED THE MOST TO YOUR LEARNING? WHAT ASPECTS OF THIS CLASS HELPED YOU TO LEARN THINK CRITICALLY?

The professor's presence every week contributed the most to my learning. At first, I did not know nothing about evaluating programs. With the professor's powerpoints and explanations, it really helped me learn what this is. I really enjoyed that the professor was opened up to everyone by giving a very detailed answer to all the questions that were asked by the students.

The assignments for this class required 'hands on' work from the student. It required the creation of data gathering tools and then implementation of them. I found that this caused me to have a working grasp on the elements needed for the finished project more than had I been presented with the data gathering material.

Ms. Healy believed we were capable of critical thought and work.

WHAT DID YOU LIKE MOST ABOUT THE CLASS AND YOUR INSTRUCTOR?

The instructor was great! The powerpoints that she made were useful for everything in the class. Other than that, I thought she always made each class an interesting one instead of a boring one.

The instructor made clear what was required at different times during the course. Since the course was only eight weeks in duration, the timely feedback and grading from the instructor allowed time for changes and corrections to be made before the next assignment was due. In addition, the instructor was readily available via email, which lent itself to the overall ability to clarify any material that might have been confusing, prior to the next class meeting.

WHAT CHANGES IF ANY, COULD BE MADE TO THE CLASS THAT WOULD HAVE HELPED YOU TO LEARN MORE? WHAT COULD THE INSTRUCTOR HAVE DONE TO MAKE THE COURSE AN EVEN BETTER LEARNING EXPERIENCE?

To be honest, I would not change anything. I enjoyed this instructor's syllabus. She had no choice but to cram everything in eight hours. Even though it was only an eight week course, I admired that she did this in such a productive way.

Because this is a research and data driven class, if it had been offered as a sixteen week class, I would have chosen that option. Other courses in the curriculum might have been better suited to the eight week time span, such as interpersonal communication or career development and appraisal.

WHAT FACTORS ABOUT YOUR OWN PERFORMANCE HELPED YOU LEARN THE MOST? WHAT DID YOU DO TO FACILITATE YOUR LEARNING?

After taking this course, I have learned that I do know about evaluating programs. The lectures, the presence of the instructor, and the research really helped me facilitate my learning.

I believe my commitment to reading the course material and the hands on nature of the class contributed to my performance; putting into action the material discussed in the text.

I followed the directions, thought, planned and executed my evaluation.

WHAT COULD YOU HAVE DONE TO MAKE THE COURSE AN EVEN BETTER LEARNING EXPERIENCE?

To be honest, nothing! The class was done in a great way. I would not change anything; however, if I had to choose something, I would probably say a bigger classroom.

Nothing - I am pushing capacity and trying to maintain balance.
